

ENVIRONMENT STRATEGY SURVEY

Share your feedback to help shape Holdfast Bay's next Environment Strategy.

We are updating our Environment Strategy and are looking for your feedback to understand where you would like to see us direct our priorities and actions.

In this survey, the word 'environment' is inclusive of all elements of the natural world in its broadest sense.

1. What do you value most about the environment in Holdfast Bay?

2. Are there any environment issues in Holdfast Bay that concern you?

Please provide details

3. Below is a summary of what Council has delivered in the last five years.

OUR CLIMATE

- Purchasing 100% renewable energy
- Implemented energy efficiency upgrades to council buildings
- Changing council passenger vehicles to electric vehicles
- New Climate Change Policy

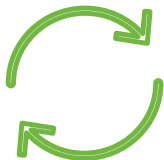

OUR COAST

- Developing a Coastal Hazard Adaptation Plan with other coastal councils along the Adelaide beach system
- Installed new sand drift fencing
- Member of the Adelaide Coastal Councils Network
- Support hooded plover breeding

OUR NATURE

- Increased quality and extent of native biodiversity
- Implemented an Adopt-a-Tree program
- New plant giveaways for residents
- Developed our first Urban Forest Plan

SUSTAINABLE RESOURCES

- Implemented a sustainable waste collection service (weekly green bin collection)
- Contributed to building a new state-of-the-art materials recovery facility
- Continued to install tree inlets
- Installed more gross pollutant traps (GPTs)

WORKING TOGETHER

- Continued to provide Green Living rebates
- Continued to provide Greening Our Community grants
- Supported new community gardens
- Continued to support environmental volunteering

Please provide any feedback you have on the environmental actions delivered to date.

This might include what you would like Council to start doing, stop doing, or continue doing more of, over the next five years.

4. Please rank the following environmental topics from most important to least important.

(1 being most important and 7 being least important).

- ☐ Climate change
- ☐ Tree canopy
- ☐ Biodiversity and habitat protection
- ☐ Coast and marine environments
- ☐ Waste reduction and recycling
- ☐ Water conservation and stormwater management
- ☐ Community education and environmental programs

5. The current Environment Strategy includes the actions listed below.

To what extent do you support or oppose these themes being included in the next Environment Strategy for the next five years?

Action	Strongly oppose	Somewhat oppose	Neutral	Somewhat support	Strongly support
 Our Climate Towards a sustainable, carbon neutral, and climate-proofed city. Implementing actions to reduce carbon emissions from both Council operations and the wider community. Addressing our adaptability and resilience to a changing climate.	☐	☐	☐	☐	☐
 Our Coast Promoting a healthy coastal system through measures to support the coast's adaptability to climate change, protect our dunes and beaches, and improve marine water quality.	☐	☐	☐	☐	☐
 Our Nature Improving biodiversity, enhancing and connecting with our natural landscapes and greening our urban environment.	☐	☐	☐	☐	☐
 Sustainable Resources Creating a thriving future and healthy environment through effective management of waste and resources.	☐	☐	☐	☐	☐
 Working Together Collaborating to rejuvenate and regenerate the environment and promote active participation and partnership.	☐	☐	☐	☐	☐

6. **General comments.**

7. **You may attach any supporting documents or images relevant to your feedback here.**

About you

We use your feedback to inform decision-making. This information is only collected for quality control purposes. Any personal details will not be linked to your survey response.

First Name	
Last Name	
Suburb *Required	
Email Address Please complete if you would like updates on the project.	

Age Group

☐ 14 and under ☐ 15 - 24 ☐ 25 - 44 ☐ 45 - 64 ☐ 65 and over

All feedback must be received by 3pm Thursday 12 November 2026.
